ABOUT ME

As a Full-Stack developer, I leverage my Master of Science studies in Electrical Engineering to gain a unique system-level perspective. My **specialization in the control of electrical systems and embedded systems programming**, together with a solid academic background and **expertise in programming, machine learning, and electrical control systems** allows me to solve complex, multidisciplinary challenges. I am driven to apply this deep technical skillset to build innovative and efficient solutions in a forward-thinking role.

RELEVANT EXPERIENCE

Software Engineer

Sep 2025 - PRESENT

Portabel Health (Internship)

- Contribute to the development and implementation of technical solutions across various projects.
- Improve work processes by contributing to project management and technical documentation.
- Apply industry best practices and technical standards to solve real-world challenges.

Programmer & SEO Analyst

Jun 2025 - Sep 2025

Bonn Bonn AB (Freelance/Contract)

- Established the basic structure of the website and integrated payment methods and social media
- Fixed an email marketing system with standard strategies, and optimized and configured SEO for the website

Teaching Assistant in Programming

2023 - 2025

Uppsala Universitet

- Assisted over 50 students per semester with concept clarification, concept explanation & feedback
- Graded assignments and examinations
- Collaborated with respective faculty to develop course materials and address student inquiries

Co-founder & Chief Technology Officer (CTO)

Mars 2023 - June 2024

NordicFlip / FurryTool (Startups)

- Drove a 20% increase in user engagement by leading the end-to-end technical development, from initial architecture to feature implementation.

EDUCATION

Master of Science (M.Sc.) in Electrical Engineering

2023 - 2025

Department of Electrical Engineering | Uppsala University

Specialization: Control of electrical systems & programming of embedded systems

Bachelor of Science (B.Sc.) in Electrical Engineering

2019 - 2022

Department of Electrical Engineering | Uppsala University
